

WHO WE ARE

- ❁ The UAE team is made up of Licensed Massage Therapists and Aromatherapy Practitioners who volunteer their time and skills.
- ❁ Our major operations occurred in NYC after the 9/11 disaster, in Florida after the 2005 hurricanes and in the aftermath of Hurricane Katrina.

❁ In Biloxi/Gulfport, Mississippi, 2005, after Hurricane Katrina.

WHAT WE DO

- ❁ The UAE team provides aromatherapy care for the relief workers of emergency situations.
- ❁ We collect and disseminate donated aromatherapy products, such as blends for respiratory problems and relaxation, to those affected by a disaster.
- ❁ Volunteers and relief workers learn about aromatherapy benefits and safety precautions.
- ❁ Members of the UAE also work with Emergency Response Massage International (ERMI) to provide 15 minute on-site seated massages for emergency responders.

HOW YOU CAN HELP

Sustainability is a major priority for the UAE. That's why we need your help. Monetary donations are gladly accepted along with the following items:

- * OILS / BLENDS
- * SPRAY BOTTLES
- * ROLL ON BOTTLES
- * DIFFUSERS
- * INHALERS
- * MASSAGE CHAIRS

ABOUT AROMATHERAPY

✿ Aromatherapy is the inhalation and application of essential oils from aromatic plants to enhance health and the quality of life.

✿ Essential oils are the highly concentrated volatile extract of flowers, herbs, grasses, shrubs, and trees.

✿ The oils can have many effects, physical and mental. For instance, inhaling eucalyptus can help clear the lungs, and peppermint can both lift one's spirits when sniffed and provide muscle and pain relief.

✿ The UAE uses essential oils to purify the air, aid in respiratory health, repel bugs, and lift the spirits of emergency responders.
