

WHO WE ARE

❁ The UAE team is made up of licensed aromatherapy and massage therapists.

❁ Our major operations occurred in NYC after the 9/11 disaster, in Florida after the 2005 hurricanes and the in the aftermath of hurricane Katrina.

❁ In Biloxi/Gulfport, Mississippi, 2005, after Hurricane Katrina.

WHAT WE DO

❁ The UAE team provides aromatherapy care for the relief workers of emergency situations.

❁ We collect and disseminate donated aromatherapy products to those affected by a disaster, such as aromatic blends for respiratory problems and relaxation.

❁ Members of the UAE also work with Emergency Response Massage International (ERMI) to provide 15 minute massages for emergency responders.

HOW YOU CAN HELP

Sustainability is a major priority for the UAE. That's why we need your help. Monetary donations are gladly accepted along with the following items:

* OILS / BLENDS

* SPRAY BOTTLES

* ROLL ON BOTTLES

* DIFFUSERS

* INHALERS

* MASSAGE CHAIRS

ABOUT AROMATHERAPY

✿ Aromatherapy is the inhalation and application of essential oils from aromatic plants to enhance health and the quality of life.

✿ Essential oils are the highly concentrated volatile extract of flowers, herbs, grasses, shrubs, and trees.

✿ The oils can have many effects, physical and mental. For instance, inhaling eucalyptus can help clear the lungs, and peppermint can both lift one's spirits when sniffed and sooth indigestion when taken orally.

✿ The UAE uses essential oils to purify the air, aid in respiratory health, repel bugs, and lift the spirits of emergency responders.
